4-2 Destination entry

Previous destination menu (F1 F1 F1)

**Memory Points** – Entry of a memory point as a destination, see **Memory point selection**.  
**Recent Destinations** – Entry of a destination from the list of recent destinations, see **Recent destination selection** on page 4-3.

**Memory point selection**  
 The screen shows the list of current memory points.  
 Select the point required and press Enter. A route will be calculated to the selected location, either as a destination or as a way point; see **Route calculation** on page 6-1.  
**Memory point information** – Select a point and press F1 (Info), see **List item display** on page 4-3.  
**List sorting** – The list can be displayed by date, alphabetically, by mark or by distance. This is shown at the top of the screen. Use the Cursor control (Left/Right) to select the required sort method.

**Previous destination menu**  
 Select the menu item required:  
**Home** – If a home position has been entered, a route to that location will be calculated, see **Route calculation** on page 6-1.  
 To enter a home position, select the Store menu (home position functions), see **Home position functions** on page 5-10.  
**Return Route** – A route is calculated from the current position of the vehicle, to the starting point of the last route to be calculated, see **Route calculation** on page 6-1.

**Ford Vehicles**  
**2000-2004 All Models**  
**Service Repair Manual**
